the areas where the drop-by-drop irrigation

method is used (a technique adopted on the island's farms to minimize the effects of drought). The tour continues to Achada Furna where we will see the communities that inhabit the new houses built for the population of Chã das Caldeiras after the 1995 and 2014 eruptions. Several inhabitants recently returned there. Continuing the tour, we stop at Cabeça Fundão where we can see the old craters and the wonderful profusion of colours of the landscape. Finally, we arrive at the entrance to the Chã das Caldeiras National Park

Here you can enjoy a magnificent view from the top of the highest mountain in Cape Verde and walk to the crater of 2014 (optional and by supplement), where you can see the points of high temperatures emanating

from the volcanic sulphur. It is worth visiting this multi-coloured landscape. The walk takes approximately 3 hours, depending on the physical condition of the participants. The tour passes through one of two locations destroyed in the 2015 eruption. Almost 98% of homes, schools, restaurants, and hotels have been devastated, but people are returning, to rebuild everything. Lunch is served in a family restaurant, followed by a tasting of the traditional Chã das Caldeiras wine, better known as Manecom. Here we also have the opportunity to buy the coffee produced on the island, considered one of the best in the world.

4 JUN FOGO

The tour begins with a visit to the city of our national cultural heritage where you can see the old traditional houses called Sobrados. Then we visit Salinas de São Jorge and the natural lava port where we can enjoy the freshness of the clear waters on the black sand beach. Do not forget to bring your swimsuit. Then we go to Ribeira Filipe stopping at one of the highest points in the area. There you can admire an impressive view and see some small plantations of coffee, fruit and vegetable gardens that enrich the land and give colour to the landscape.

At the next stop, we will have the opportunity to admire Calabaceira, one of the oldest trees on the island, which is around 200 years old. The calabaceira fruit is used to make the typical regional juice, known as punch. Here, therefore, we will have the possibility to taste the Calabaceira punch. Then we visit the church of São Lourenço which is the oldest on the island, built in the 16th century. Currently the monument is in charge of the Capuchin friars who have played a very important role in the education of the youth of the community. Next to the church is the cemetery of the same name. In the past, the important owners of the island were buried here.
